

Romex® SIMpull™ - Just the Facts and Only the FAQs

1. How did you make it easier to pull?
 - It is a unique patent pending jacketing system developed by Southwire.
2. The jacket on NM cable stretches in long difficult pulls. Does the jacket on Romex® SIMpull™ stretch when pulled?
 - No, because of the new jacket less force is needed to install the cable resulting in eliminating / reducing jacket stretching.
3. Is Romex® SIMpull™ still easier to pull in cold weather?
 - Yes.
4. Is Romex® SIMpull™ still easier to pull in hot weather?
 - Yes.
5. Is there limited shelf life for Romex® SIMpull™?
 - No, extensive aging tests have been performed showing to confirm that shelf life is not an issue.
6. Does the new jacket system result in any harmful residue?
 - No.
7. Will you be charging a premium for Romex® SIMpull™ ?
 - No, this will become our standard product. We want the Real Romex to be the preferred product in the market.
8. Will Romex® SIMpull™ become Southwire's standard product?
 - Yes.
9. Will Romex® SIMpull™ work for long cable runs?
 - Yes, the unique jacketing system works both for short and especially for long runs.
10. Have you been making Romex® SIMpull™ and shipped this already?
 - Yes, in moving to full product we have already started shipping product in the old package. We already have had contractors notice the difference and were happy to hear that this will become our standard product.
11. How do I know that I am getting Romex® SIMpull™?
 - Look for new package with the new Romex® SIMpull™ logo. Most distributors will start seeing the new product around November 1.
12. How do I specify this product?
 - Ask for Southwire Romex® SIMpull™ by name.
13. Will the new jacket system interfere with writing on the jacket?
 - No.
14. Will there be any residue from the jacket on the packaging?
 - No.
15. Will this cause the coil to become loose on the payoffs?
 - No problems have occurred using multiple payoff systems and techniques.
16. Will you still do the standard jacket colors?
 - Yes, our introduction of color jackets has been very successful and we will continue to supply color-coded jackets.
17. Did this require any Code or standard changes?
 - No.
18. Will I be able to get this from any other manufacturer?
 - No, it is a Patent Pending design.
19. How do you know that it is 50% is easier to pull?
 - We had comparative testing certified by ETL confirming our claims.
20. Will the new jacket system attract dirt?
 - No.
21. Why is it tear resistant?
 - High pulling tensions result in jacket tearing. The unique jacketing system greatly reduces these tensions resulting in tearing.
