

CAB TELEWIRE HOOKS are offered in a wide variety of styles for the support of electrical, control, communication, sensor or computer wires. They can be driven into timber or hung from roof bolt plates, chain, spads or cable. Pigtail and closed loop designs offer additional safety and prevent wires from accidentally coming out of the hanger.

CAB DRIVE-IN TELEWIRE HOOKS

These hooks are designed to be used without a nail for installation. They have a sharp point for driving and an offset opening to prevent wires from accidentally coming out of the hook.

- CAB 342** 3/4" diameter, .156 wire, 200/Box, 10 lbs.
- CAB 296** 1-1/4" diameter, .187 wire, 200/Box, 15 lbs.
- CAB 334** 1-1/4" diameter, .156 wire, 200/Box, 12 lbs.

CAB 297 TELEWIRE HOOKS

Designed for installation from spad, roof bolt plate or chain. Offset opening helps retain wire in hook. Made from .187 wire with 3/8" diameter top loop.

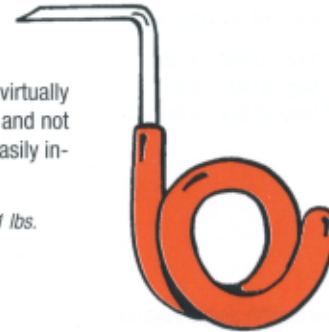

- CAB 297** 1-1/4" diameter, .187 wire, 200/Box, 15 lbs.

CAB DRIVE-IN CLOSED LOOP HOOKS

Features a 540° insulated spiral loop which virtually guarantees that wiring will be safely retained and not accidentally vibrate or jump out of the hook. Easily installed with sharp tip drive-in point.

- CAB 911** 1-1/4" diameter, .156 wire, 100/Box, 11 lbs.

CAB 302, 311 TELEWIRE HOOKS

These "J" hooks are useful for a wide variety of hanging jobs. Can be installed from chain, roof bolt plates, spads, etc. 3/8" diameter top loop and 1-1/4" carrier section. Offered in 2 wire gauges.

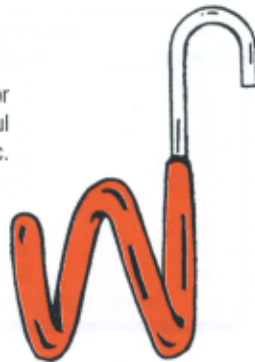

- CAB 302** 1-1/4" dia., .187 wire, 200/Box, 16 lbs.
- CAB 311** 1-1/4" dia., .156 wire, 200/Box, 11 lbs.

CAB CLOSED LOOP TELEWIRE HOOKS

Closed loop design prevents wires from vibrating or jumping out of the carrier section of the hook. Useful for installing computer lines, fiber optic cables, etc. Made from .156 wire with 1/2" diameter top loop.

- CAB 908** 1" diameter, 200/Box, 15 lbs.
- CAB 912** 1-1/4" diameter, 100/Box, 10 lbs.

CAB JUMBO TELEWIRE HOOKS

CAB Jumbos are extra capacity hooks made for those large jobs. They feature the same design as the popular 297 and 311 but have larger overall dimensions. Made from sturdy .187 wire with a 5/8" diameter top loop.

- CAB 223** 1-5/8" diameter, .187 wire, 200/Box, 17 lbs.
- CAB 219** 2" diameter, .187 wire, 200/Box, 19 lbs.

CAB 340, 341 TELEWIRE HOOKS

"S" style hook features 5/8" diameter top loop and 1-1/4" diameter carrier loop. CAB 340 same as 341 except attachment loop set 90° to carrying area. Made from .156 wire.

- CAB 340** 1-1/4" dia., .156 wire, 200/Box, 11 lbs.
- CAB 341** 1-1/4" dia., .156 wire, 200/Box, 11 lbs.

CAB 333, 339 TELEWIRE HOOKS

Features a large 5/8" diameter top attachment loop for easier installation from roof bolt plates, chains, spads or cable. Offset opening retains wiring in support area.

- CAB 333** 1-1/4" diameter, .156 wire, 200/Box, 12 lbs.
- CAB 339** 1-1/4" diameter, .187 wire, 200/Box, 16 lbs.
